EXECUTIVE AI BRIEFING / DATA READINESS

AI CAN SCALE. CAN ITS DATA?

A use-case data contract connects quality, authority and value.

ACCESS

+50%

Relative annual increase in access to sanctioned AI tools.

DELOITTE 2026

READINESS

40%

Globally report high preparedness in AI data management.

DELOITTE 2026

AT RISK

60%

Forecast AI projects without AI-ready data abandoned through 2026.

GARTNER 2025

THE USE-CASE DATA CONTRACT

The agreed data, permitted use, accountable owner and evidence required before release.

1 Define the decision

Specify the business result and the data it needs.

2 Prove data fitness

Check quality, freshness, lineage and exceptions.

3 Name authority

Assign the owner, approved use and stop rights.

4 Test continuous use

Check repeated retrieval, handoffs and monitoring.

5 Measure the result

Connect defects and data investment to cost, quality and service.

6 Renew permission

Release in stages; reassess drift, changes and failures.

EXECUTIVE RELEASE GATE

PROCEED

The receiving team owns the tested workflow.

REPAIR

Fix the gaps and test the evidence again.

STOP

Do not extend unjustified AI authority.

No named owner, no tested data, no wider AI authority.
