AI GOVERNANCE

POLICY IS NOT PERMISSION

Six proofs before AI can act for your business.

A signed policy is not proof of a working control.

Connect business purpose, authority, runtime enforcement and evidence.

01

BUSINESS CASE

Value and accountable owner

Benefit after oversight cost

02

COMPLETE DISCOVERY

Embedded AI, agents, suppliers

Actions and data access

03

RULES & RISK

Applicable duties, impact

Cost to reverse

04

BOUNDED AUTHORITY

Action, identity and duration

Approver and revocation

05

ENFORCEMENT AT EXECUTION

Check policy at execution

Test attempted violations

06

OPERATING EVIDENCE

Tests, incidents and logs

Net value after control cost

AUTONOMY IS A BUSINESS DECISION

OBSERVE

RECOMMEND + REVIEW

ACT WITHIN LIMITS

THE EXECUTIVE DECISION

Continue • restrict • repair • stop — with evidence.
