PROFESSIONAL SUMMARY

Enterprise AI, Data and Analytics leader with 20+ years in enterprise technology and 8+ years focused on AI, data and analytics leadership across MSX International, Volvo Group, Kimberly-Clark and IBM. I work where strategy has to become something the business can actually use - setting priorities, clarifying ownership, putting the right governance in place and helping teams adopt AI in day-to-day work. My experience spans Microsoft 365 Copilot and agent initiatives, AI in warranty, sales and aftermarket workflows, EMEA value discovery, and building the operating and governance foundations needed to scale AI with clearer ownership and business value.

CORE LEADERSHIP AREAS

Enterprise AI Strategy | AI & Data Operating Models / CoEs | AI Governance & Responsible AI | Data Governance & Trusted Data | AI Portfolio & Value Realization
Enterprise AI Adoption & Workflow Change | Data & Analytics Leadership | Generative AI & Agentic AI | Product & Portfolio Leadership | Executive Stakeholder Management

PROFESSIONAL EXPERIENCE

AI & Data Center of Excellence Director | MSX International

Dec 2025 - Jun 2026 | Göteborg, Sweden
Global automotive business services.
Mandate: Build the foundations of a business-facing AI & Data Center of Excellence, covering portfolio governance, data accountability and adoption.

- Created an AI opportunity portfolio and lifecycle process with named decision owners, stage criteria and readiness-to-scale checks, making prioritization and accountability easier to examine.
- Translated AI and data maturity assessment into a 2026-2027 roadmap, identifying capability gaps and priorities for stewardship, data ownership and trusted information.
- Established early CoE governance and engagement mechanisms across business and technology stakeholders, giving an emerging enterprise capability a more defined working structure.

Data Analytics and AI Leader | Volvo Group / Volvo Trucks

Aug 2022 - Dec 2025 | Göteborg, Sweden
Mandate: Lead AI and analytics adoption in commercial operations, with business ownership, operational fit and responsible use at the center.

- Led Microsoft 365 Copilot and agent initiatives alongside AI solutions introduced into warranty, sales and aftermarket workflows, connecting adoption with real commercial work and human review.
- Connected business teams with Digital & IT, legal, compliance and other stakeholders to frame use cases, clarify dependencies and consider practical responsible-use requirements.
- Designed practical AI innovation and literacy programs reaching thousands of employees globally, building understanding of AI use and its limits.
- Across my two Volvo AI roles (2018–2021 and 2022–2025), led business-requirement, product and stakeholder work on 100+ AI initiatives, PoCs and projects across regions.

Artificial Intelligence Strategist - EMEA | Kimberly-Clark

Jul 2021 - Sep 2022 | Kraków, Poland
Mandate: Help EMEA functions evaluate AI opportunities against business priorities and readiness, not technology appeal alone.

- Led EMEA AI and Data Science value discovery, reporting directly to the Chief Data & Analytics Officer; made business problems, expected value and feasibility explicit before technical solution selection.
- Worked across supply chain, manufacturing, logistics, sales and marketing to compare opportunities against business readiness, data conditions and delivery considerations.

Senior Artificial Intelligence Business Expert | Volvo Group

Jun 2018 - Jul 2021 | Wroclaw, Poland
Mandate: Connect enterprise AI demand, stakeholders and CoE specialists while building practical literacy and business engagement.

- Led business requirements, product and stakeholder coordination in AI and ML CoE work, translating cross-regional business needs into AI use cases and delivery discussions.
- Delivered 100+ AI learning sessions and supported enterprise practitioner communities, strengthening shared AI understanding across business and technical teams.

Jair Ribeiro

Enterprise AI & Data Leader

PROFESSIONAL EXPERIENCE

Cloud and AI Project Manager | IBM Watson Solution Designer | IBM

Jul 2017 - Jun 2018 | Wroclaw, Poland

- Worked as an IBM Watson Solution Designer, providing technical advice to sales teams and supporting the development and positioning of cognitive and AI solutions.
- Applied IBM Design Thinking to frame customer problems and shape technology-led solutions around user and business needs.

EARLIER CAREER

Founder, ICT Manager | Imprendo Consulting | Mar 2012 - Apr 2013
Information Technology System Administrator | CityLife S.p.A | Jun 2009 - Mar 2012
Application Testing & Documentation | AXA Assicurazioni | Mar 2009 - May 2009
IT System Administrator | PeopleLab Srl | May 2007 - Apr 2009

EDUCATION

Selinus University of Sciences and Literature | Master of Science (MSc), Artificial Intelligence | Oct 2025 - Jun 2026
Research focus: Responsible AI Adoption in Global Enterprises

Massachusetts Institute of Technology - edX | MicroMasters program, Statistics and Data Science
Massachusetts Institute of Technology | Minds and Machines - Philosophy & Ethics

Selected credentials: EITCA/AI Artificial Intelligence Academy (24 ECTS) | Microsoft Leadership and Innovation Professional Certificate - Microsoft | Responsible Generative AI - University of Michigan
