Sweden / Nordic scope | Open to immediate collaboration and relevant mandates
LinkedIn Profile | AI & Data Portfolio

PROFESSIONAL SUMMARY

Across two Volvo Group roles in Poland and Sweden, led business-facing Artificial Intelligence (AI) and analytics work spanning requirements, product, stakeholder coordination and adoption. Across both Volvo AI roles, portfolio work covered 100+ AI initiatives, Proofs of Concept (PoCs) and projects across regions. At Volvo Trucks, this included Microsoft 365 Copilot and agent initiatives in warranty, sales and aftermarket workflows. At MSX International, continued a comparable enterprise AI mandate in an explicit Director-level role, establishing AI & Data Center of Excellence (CoE) portfolio and governance foundations, decision ownership and a 2026-2027 maturity roadmap.

CORE COMPETENCIES

Enterprise AI Strategy | AI & Data Operating Models / CoEs | AI Governance & Responsible AI | Data Governance & Trusted Data | AI Portfolio & Value Realization
Enterprise AI Adoption & Workflow Change | Data & Analytics Leadership | Generative AI & Agentic AI | Product & Portfolio Leadership | Executive Stakeholder Management

PROFESSIONAL EXPERIENCE

AI & Data Center of Excellence Director | MSX International

Dec 2025 - Sep 2026 | Göteborg, Sweden
Global automotive business services.
Mandate: Continue cross-functional enterprise AI leadership in an explicit Director role, establishing AI & Data CoE portfolio governance, data accountability and adoption foundations.

- Created an AI opportunity portfolio and lifecycle process with named decision owners, stage criteria and readiness-to-scale checks, making prioritization and accountability easier to examine.
- Translated AI and data maturity assessment into a 2026-2027 roadmap, identifying capability gaps and priorities for stewardship, data ownership and trusted information.
- Established early CoE governance and engagement mechanisms across business and technology stakeholders, giving an emerging enterprise capability a more defined working structure.

Data Analytics and AI Leader | Volvo Group / Volvo Trucks

Aug 2022 - Dec 2025 | Göteborg, Sweden
Mandate: Lead business-facing AI and analytics adoption across commercial operations, coordinating owners, Digital & IT and governance teams around practical use.

- Led Microsoft 365 Copilot and agent initiatives alongside AI solutions introduced into warranty, sales and aftermarket workflows, connecting adoption with real commercial work and human review.
- Connected business teams with Digital & IT, legal, compliance and other stakeholders to frame use cases, clarify dependencies and consider practical responsible-use requirements.
- Designed practical AI innovation and literacy programs reaching thousands of employees globally, building understanding of AI use and its limits.
- Across my two Volvo AI roles (2018–2021 and 2022–2025), led business-requirement, product and stakeholder work on 100+ AI initiatives, PoCs and projects across regions.

Artificial Intelligence Strategist - EMEA | Kimberly-Clark

Jul 2021 - Sep 2022 | Kraków, Poland
Mandate: Help EMEA functions evaluate AI opportunities against business priorities and readiness, not technology appeal alone.

- Led Europe, Middle East and Africa (EMEA) AI and Data Science value discovery, reporting directly to the Chief Data & Analytics Officer; made business problems, expected value and feasibility explicit before technical solution selection.
- Worked across supply chain, manufacturing, logistics, sales and marketing to compare opportunities against business readiness, data conditions and delivery considerations.

Senior Artificial Intelligence Business Expert | Volvo Group

Jun 2018 - Jul 2021 | Wroclaw, Poland
Mandate: Connect enterprise AI demand, stakeholders and CoE specialists while building practical literacy and business engagement.

- Led business requirements, product and stakeholder coordination in AI and ML CoE work, translating cross-regional business needs into AI use cases and delivery discussions.
- Delivered 100+ AI learning sessions and supported enterprise practitioner communities, strengthening shared AI understanding across business and technical teams.

Jair Ribeiro

Enterprise AI & Data Leader

PROFESSIONAL EXPERIENCE

Cloud and AI Project Manager | IBM Watson Solution Designer | IBM

Jul 2017 - Jun 2018 | Wroclaw, Poland

- Worked as an IBM Watson Solution Designer, providing technical advice to sales teams and supporting the development and positioning of cognitive and AI solutions.
- Applied IBM Design Thinking to frame customer problems and shape technology-led solutions around user and business needs.

EARLIER CAREER

Infrastructure Services Solution Manager | IBM | Jul 2016 - Jul 2017
Project Manager (concurrent IBM assignment) | IBM | Apr 2017 - Aug 2017
IT&C Manager / Senior IT Engineer / IT Project Manager | Hewlett Packard Enterprise | Jan 2013 - Jul 2016
Founder, ICT Manager | Imprendo Consulting | Mar 2012 - Apr 2013
Information Technology System Administrator | CityLife S.p.A | Jun 2009 - Mar 2012
Application Testing & Documentation | AXA Assicurazioni | Mar 2009 - May 2009
IT System Administrator | PeopleLab Srl | May 2007 - Apr 2009

EDUCATION

Selinus University of Sciences and Literature | Master of Science (MSc), Artificial Intelligence | Oct 2025 - Jun 2026
Research focus: Responsible AI Adoption in Global Enterprises

Massachusetts Institute of Technology - edX | MicroMasters program, Statistics and Data Science
Massachusetts Institute of Technology | Minds and Machines - Philosophy & Ethics

Selected credentials: EITCA/AI Artificial Intelligence Academy (24 ECTS) | Microsoft Leadership and Innovation Professional Certificate - Microsoft | Responsible Generative AI - University of Michigan
