
Jair Ribeiro

Enterprise AI & Data Leader | Strategy - Operating Models - Governance - Adoption - Business Value

Gothenburg, Sweden | jair.ribeiro@outlook.it | +46 76 761 21 58

[LinkedIn Profile](#) | [AI Leadership Portfolio](#)

PROFESSIONAL SUMMARY

Artificial Intelligence (AI) and Data leader with enterprise experience across MSX International, Volvo Group, Kimberly-Clark and IBM. Builds the structures that move AI from experimentation into repeatable business capability, including portfolio governance, operating models, responsible AI, adoption and value realization. Experience includes supporting operational use of AI in warranty, sales and aftermarket workflows, alongside enterprise AI strategy, product and portfolio leadership, cross-functional delivery and responsible adoption across global and Europe, Middle East and Africa (EMEA) environments.

SELECTED IMPACT

Supported operational adoption of AI solutions and agents in warranty, sales and aftermarket workflows, moving AI beyond awareness into everyday business processes.

Applied Generative AI to translation, summarization, structured analysis, communications and commercial operations, with human review and responsible-use practices.

100+ AI initiatives, Proofs of Concept (PoCs) and projects supported across multiple regions at Volvo Group, complemented by 100+ AI literacy sessions as adoption enablement.

CORE COMPETENCIES

Enterprise AI Strategy | AI & Data Center of Excellence (CoE) | AI Operating Models | Responsible AI & AI Governance | Data Governance | AI Portfolio Management | Value Management

AI Adoption & Change | Data & Analytics Leadership | AI Product Management | Product Management | Executive Stakeholder Management | Generative AI & Large Language Models (LLMs)

PROFESSIONAL EXPERIENCE

AI & Data Center of Excellence Director | MSX International

2025 - 2026 | Gothenburg, Sweden

Global automotive business services.

- Established and led MSXi's AI & Data Center of Excellence, connecting AI and data strategy, governance, adoption and business value across strategy, operations and technology.
- Introduced lifecycle discipline for AI initiatives, with clearer stages, roles, ownership and scale-readiness criteria.
- Worked with business and technology leaders to move AI opportunities from isolated experimentation toward managed enterprise capability and responsible adoption.

Data Analytics and AI Leader | Volvo Group

Aug 2022 - Dec 2025 | Greater Gothenburg Metropolitan Area, Sweden

- Supported operational adoption of AI solutions and agents in warranty, sales and aftermarket workflows, working with business teams to move use cases into everyday processes.
- Applied Generative AI in translation, summarization, structured analysis, communications and commercial operations, with human review and responsible-use practices.
- Designed and launched AI innovation and literacy programs reaching thousands of employees worldwide, building the knowledge and confidence required to use AI responsibly.
- Led cross-functional AI Proofs of Concept across warranty, sales, aftermarket, legal, compliance and sustainability, connecting business problems with practical AI use cases.

Artificial Intelligence Strategist - EMEA | Kimberly-Clark

Jul 2021 - Sep 2022 | Krakow Metropolitan Area, Poland

- Managed value discovery and realization for AI and Data Science initiatives supporting the company's AI agenda across EMEA.
- Worked in a global role reporting directly to the Chief Data & Analytics Officer, connecting AI ambition with business opportunities and investment choices.

Jair Ribeiro
