PROFESSIONAL SUMMARY

Enterprise AI, Data and Analytics leader with 20+ years in enterprise technology and 8+ years focused on AI, data and analytics leadership across MSX International, Volvo Group, Kimberly-Clark and IBM. I work where strategy has to become something the business can actually use - setting priorities, clarifying ownership, putting the right governance in place and helping teams adopt AI in day-to-day work. My experience spans Microsoft 365 Copilot and agent initiatives, AI in warranty, sales and aftermarket workflows, EMEA value discovery, and building the operating and governance foundations needed to scale AI with clearer ownership and business value.

SELECTED LEADERSHIP IMPACT

- Across Volvo AI roles, led business-requirement, product and stakeholder work across 100+ AI initiatives, Proofs of Concept (PoCs) and projects spanning multiple regions and functions.
- Led Microsoft 365 Copilot and agent initiatives alongside operational adoption of AI solutions in warranty, sales and aftermarket workflows, moving AI beyond awareness into day-to-day business processes.
- At MSX, established AI & Data CoE foundations, portfolio and lifecycle governance, scale-readiness criteria, a 2026-2027 maturity roadmap and initial data-governance foundations.
- At Kimberly-Clark, led EMEA AI value discovery and realization, reporting directly to the CDAO across supply chain, manufacturing, logistics, sales and marketing.

CORE LEADERSHIP AREAS

Enterprise AI Strategy | AI & Data Operating Models / CoEs | AI Governance & Responsible AI | Data Governance & Trusted Data | AI Portfolio & Value Realization
Enterprise AI Adoption & Workflow Change | Data & Analytics Leadership | Generative AI & Agentic AI | Product & Portfolio Leadership | Executive Stakeholder Management

PROFESSIONAL EXPERIENCE

AI & Data Center of Excellence Director | MSX International

Dec 2025 - Sep 2026 | Gothenburg, Sweden
Global automotive business services.

- Established the foundations of MSXi's AI & Data Center of Excellence, bringing AI and data strategy, governance, adoption and business value into one working model across business and technology.
- Created a clearer portfolio and lifecycle process for AI initiatives, defining the stages, decision owners and evidence needed before moving toward scale.
- Turned the maturity assessment into a practical 2026-2027 roadmap, while putting the first data ownership, stewardship and quality practices in place.
- Brought business and technology leaders together to move AI opportunities beyond isolated experiments and toward a more managed enterprise capability.

Data Analytics and AI Leader | Volvo Group

Aug 2022 - Dec 2025 | Greater Gothenburg Metropolitan Area, Sweden

- Led AI adoption across commercial operations, including Microsoft 365 Copilot and agent initiatives and AI solutions introduced into warranty, sales and aftermarket workflows, helping business teams bring them into day-to-day work.
- Applied Generative AI to translation, summarization, structured analysis and communications, with human review and responsible-use practices built into the way the work was done.
- Led AI use cases and PoCs across warranty, sales, aftermarket, legal, compliance and sustainability, starting from the business problem and shaping practical AI solutions around it.
- Built AI innovation and literacy programs that reached thousands of employees worldwide, helping strengthen responsible use and the quality of business demand.

Artificial Intelligence Strategist - EMEA | Kimberly-Clark

Jul 2021 - Sep 2022 | Krakow Metropolitan Area, Poland

- Led AI and Data Science value discovery across EMEA, reporting directly to the Chief Data & Analytics Officer and helping business teams decide which opportunities were worth pursuing.
- Worked with supply chain, manufacturing, logistics, sales and marketing to define the business problem, expected value, feasibility and readiness before moving into technical solutioning.

Jair Ribeiro

Enterprise AI & Data Leader

PROFESSIONAL EXPERIENCE

Senior Artificial Intelligence Business Expert | Volvo Group

Jun 2018 - Jul 2021 | Wroclaw, Poland

- Led business requirements, product management and stakeholder engagement across 100+ AI initiatives, PoCs and projects in multiple regions.
- Delivered 100+ AI learning sessions and training opportunities across the global Volvo Group, strengthening AI literacy and the quality of business demand.

Cloud and AI Project Manager | IBM Watson Solution Designer | IBM

Jul 2017 - Jun 2018 | Wroclaw, Poland

- Worked as an IBM Watson Solution Designer, providing technical advice to sales teams and supporting the development and positioning of cognitive and AI solutions.
- Applied IBM Design Thinking to frame customer problems and shape technology-led solutions around user and business needs.
